# Friends Around the World 5rd Anniversary CAL 2020
# Instructions for adding extra finishing rounds

The following instructions will prepare your squares for joining. All squares will need to be at a final count of 48 sts per side.

Once you finish your individual squares, you'll note that they will have various stitch counts so it will be necessary to add 3 additional rounds to bring the final count to 48 sts per side. Pay close attention as the instructions vary slightly based on the number of stitches in each square causing each Set of Rounds to have different instructions.

*There will be separate documents for each different stitch count per square published on the Monday following the Thursday square release.*
